EXPLANATION OF TERMS

Object type*:

admin (level 0-5)
This layer depicts the administrative and political boundaries of the country in question. Level “0” corresponds to the country as a whole, with an increasing level of detail for each successive level (e.g., 2, 3 and so on).

postal (1-7 digits)
This layer depicts the postcode divisions of the country in question. “1” refers to one-digit postcodes, “2” to two-digit postcodes, and so on. The higher the number, the more detailed the depiction of the postcodes.

Topogr
This layer depicts topographic features, such as streets, rail networks, bodies of water, elevation levels, forests, areas of occupation, industrial regions, etc.

TT
This layer is based on TomTom cartography.

Off. code:**

This layer contains labels featuring official regional codes - for example, the official designators of postcodes used by the national postal organization.

Nat. lang.* :**

In addition to ASCII-based labels, this layer contains labels in the language (and associated special characters) of the country in question. For some countries local labels are not properly shown In MapInfo, unless the appropriate font is installed or the system's regional settings have been changed to the country in question.

WORLDWIDE DIGITAL MAPS

You can use geomarketing software, GIS, BI and CRM systems to visualize and analyze your company data on digital maps. In just a few steps, you can extract insights from your data that would otherwise not be apparent. GfK GeoMarketing's worldwide map collection is the ideal foundation for carrying out these cartographic analyses. Select from among 240 country map editions to support your international planning. All maps are created by our own in-house team of cartographers and fit together seamlessly, without gaps or overlaps.

HIGHEST QUALITY STANDARDS

- Comprehensively researched
- Regularly updated
- High-resolution, gapless vector maps
- Available in all standard data formats, including ESRI ArcGIS (*.shp), RegioGraph (*.lay), MapInfo (*.tab), Oracle, GeoDatabase (*.gdb).

UPDATE PRICE

If your map edition is not older than the most recent two releases, you can update to the current version for 50% off the full price.

ONGOING SAVINGS OF 50%!

Subscribe and save 50%, which already applies to your first order. We'll then automatically send you new map versions upon their release to ensure that you are always working with the latest products.

Below you'll find a summary of GfK GeoMarketing's complete map offering. We offer the world's largest collection of vector maps of postal and administrative boundaries. The map layers included in each country edition can be found in the corresponding tabular overview.

SELECT YOUR EDITION

- **Country editions**
  Looking for a map of a specific country? You can individually order country-specific map editions. These editions are priced in three categories, beginning at €500.
- **Continent editions**
  The continent edition contains all maps of the countries located in the corresponding continent and is available for an attractive bundled rate. For each country, you'll receive all available postcode, administrative and topographic maps as well as individual map layers. All layers include complete German, international and local place-name attributions.
- **World Map Edition**
  The World Map Edition is a combination of the individual continent editions and as such is one of the largest collections of vector-based administrative and postcode maps available on the market. The World Map Edition offers global coverage. Individual countries are saved in separate files. All map layers fit together seamlessly with those of neighboring countries, without gaps or overlaps.

For map orders, please specify the desired data format:

☐ ESRI ArcGIS (.shp) ☐ RegioGraph (.lay) ☐ MapInfo (.tab) ☐ Oracle ☐ GeoDatabase (.gdb)

☐ UPDATE SUBSCRIPTION

You are ordering RegioGraph, digital maps or GfK market data as a subscription. New versions of the ordered products will be automatically sent to you in the coming years without separate billing. This generally corresponds to an average of a maximum of one update per year. The discounted update price already applies to the first delivery. This is invoiced annually in advance and is based on the GfK GeoMarketing pricelist in force on the date of ordering. The subscription has a minimum duration of 36 months. The subscription will renew automatically for one additional year in each case unless cancelled no later than 3 months before the contract expires.

All prices are for single-user, in-house licenses. The general terms and conditions and licensing regulations of GfK GeoMarketing apply. These are detailed at www.gfk-geomarketing.com/licences. All prices exclude VAT and shipping. For delivery in Germany, VAT will be added. For delivery in the EU, please quote your VAT number.

PLEASE DELIVER TO:
